

Ways to create the illusion of space.

Overlap. One object appears to be behind the other.

Shading. Light and shadow create the illusion of form and space.

Placement. Objects higher in a picture appear to be in the distance.

Size. If objects are the same size, the distant ones look smaller than the closer ones.

Value and focus. Lighter values and less detail suggest distant objects.

Linear perspective. Parallel lines and edges seem to go toward one or more vanishing points.

Name: _____
